NEW YORK STOCKS.
New York, Oct. 27.—The speculation in stocks to-day exceeded any recent record, and despite exceptional heavy dealings in Sugar and Reading, the market could fairly be termed broad, a number of the prominent shares attracting attention by fair sized totals. The operations were signalized by a scoop against values on the part of some person or persons unknown, presumably interested on the short side, and the combined effectiveness and simplicity of the tactics employed once more illustrated the shortsightedness and gullibility of the average Wall Street trader. The scheme, which purported to forecast political complications between this country and Spain together with a rise in call money to an extreme 12 per cent., caused recessions in prices of 1 1/2 to 3 1/2 in the general list, while Sugar lost 2 7/8 per cent. The strategem enabled shorts, who were being "gunned" for by a leading operator, to either escape altogether or limit their losses. The market displayed irregularity in the initial dealings, but the changes were slight. A firm tone soon developed, and on heavy purchases for both accounts prices rose all along the line with an especial inquiry for the high priced industrials. The market was again raided in the last hour, although money reacted to 6 per cent., and many stocks touched the lowest points. The closing was weak with net changes in sharp fractional losses general.
